To City Clerk and Honourable Council Members

My family and I have concerns about application A-9-10-Z-OP filed by M.Mageran.

We are concerned with the safety of our teenaged children and my senior citizen mother-in-law who also lives with us. The transient nature of a trailer park campground makes it difficult to recognize strangers and strange vehicles who do not belong in the area. We have had strangers wander onto our property saying they were from the trailer park, how can we be sure? The numbers of strangers now in the area will increase with the increase in campers surrounding us. That makes us an easy target for any would be thieves wanting to check out the house.

We have had to move our pool with the trees that have been cleared out between the trailer park. There are no background checks required for trailer parks we don't know who is staying there or who may have an unhealthy interest in teenage children.

We are also concerned with the safety and security of our well water. Have any studies been done to prove that there is enough ground water for the New North Greenhouse, the citizens living in their own homes nearby and the added families at the trailer park? What guarantees do we have that with the drop in water levels that the added families on well water won't dry up our well? When we bought our property here and had Mr. Mageran build our home we thought that there would only be a few more homes possibly in the vicinity. The trailer park adds quite a few families to the equation and now more are wanting to be added.

We are also concerned with the drop in resale value of our home. It has decreased with the trailer park already in existence 600 feet away. The value will plummet once we are surrounded by trailer park beside and behind us. Who would choose to live surrounded by a trailer park? It will be increasingly difficult to sell our new home if the need arises.

We do not wish to hamper anyones free enterprise. This was our dream come true a new home where we could grow old in nature and retire someday and leave to our children. This is becoming a nightmare.

We need to worry about ground water more than ever. We worry about strangers and the safety of our family and visitors. The loss of trees and natural habitat for the wild life around us as the bulldozers are clearing out new areas for the trailers and garages.

What recourse do we have if any when the well dries up? What guarantees do we have that our resale value on our home won't plummet further? Who makes up the difference or do we just suffer our losses in peace? We do not have enough information or guarantees to safely say that we approve of this application. We regretfully request that permission be denied at this time.

Sincerely,

Suzanne Carter William Carter Loreen Carter
